

The Village of Goshen Department of Public Works will be flushing fire hydrants from 10PM to 6AM during the week of October 12th, 2020. Flushing will verify the proper operation of fire hydrants and help maintain water quality in the distribution system. During flushing you may notice a temporary loss in water pressure and/or a red discoloration of the water. Water users are asked to refrain from using water during between these times unless absolutely necessary. Water users are advised to check for this water discoloration before resuming regular laundry washing. If you have any questions about your water service, please call the Village of Goshen Department of Public Works at 845-294-6288.
